Cari,
The Idaho Department of Environmental Quality appreciates the opportunity to review and comment on the draft ASAO and SOW for the Stibnite site. Attached are IDEQ's comments and edits. As IDEQ is not a signatory to the ASAO, DEQ did not provide comments on the technical details for the work to be performed under this ASAO or SOW. However, IDEQ will continue to participate as needed, and as resources allow, as things moves forward. IDEQ has provided its ARARs to Region 10 and is confident that our state regulations and interests will be satisfied as part of that process. Again, thank you for the opportunity to review these documents and taking our comments into consideration.

Thank you,
Lisa O'Hara
